

CoolCell is the new product for the Coolifting system. It is a new treatment, but also a new approach to the Coolifting concept:

INTRODUCTION

Until now Coolifting was a facial treatment performed at professional centres, session by session. With CoolCell we have taken it to a new level, now with body treatments through kits that effectively reduce cellulite and its visible effects. The way to apply it also varies: the kit consists of two cartridges, two vials, and a 50-ml gel-cream jar for home use, with lipolytic and anti-cellulite effects.

EFFECT

-3-ml serum: designed for optimal and powerful anti-cellulite treatment. Thanks to its formulation, featuring very high concentrations, it delivers optimal effects, as quickly as possible. It is formulated with 3 special active ingredients having anti- cellulite properties, and supplemented with natural extracts that facilitate the elimination process.

-50-ml gel-cream: designed as a complement to the “shock treatment”. Thanks to its formulation, with balanced concentrations, it delivers optimal effects prior to subsequent treatment and maintenance at home, in the process of eliminating and draining localized fat and retained liquids.

USAGE PROTOCOL

Cellulite always develops in dual areas: the buttocks, thighs, or stomach. Therefore, the treatment consists of applying a session on one of the sides and another on the opposite

one, in the same way as with the traditional Coolifting vials, including the subsequent massage. After this, the 50-ml bottle is given to the customer, for her to apply it at home as a complement treatment between two sessions at the centre. The product is applied once a day, preferably at night, for a week, at which time she must return to the centre for the next session, and thus begins the cycle of 8 sessions to complete the treatment.

The way to apply the gel-cream is as follows:

Apply a hazelnut-sized amount of the product to the area previously treated with the Coolifting gun. Rub for 4 minutes, until completely absorbed. Let the area rest for 1 to 2 minutes, and then rub again for 2 minutes. The sensation of internal heat can last from 30 to 60 minutes.

A daily application is recommended, preferably at night.

COMPOSITION

The ingredients of the CoolCell vial are:

PROPYLENE GLYCOL, ALCOHOL DENAT., AQUA (WATER), GLYCERIN, EUGLENA GRACILIS EXTRACT, CAFFEINE, CARNITINE, GLAUCINE, CENTELLA ASIATICA (CENTELLA) EXTRACT, EQUISETUM ARVENSE (HORSETAIL) EXTRACT, VERBENA OFFICINALIS (VERVAIN) LEAF EXTRACT, PAULLINIA CUPANA (GUARANA) SEED EXTRACT, SAMBUCUS NIGRA (ELDERBERRY) FLOWER EXTRACT, EUGENIA CARYOPHYLLUS (CLOVE) FLOWER EXTRACT, GLAUCIUM FLAVUM (YELLOW HORNPOPPY) LEAF EXTRACT, NIACINAMIDE, BIOTIN, COCO-GLUCOSIDE, LECITHIN, TOCOPHEROL, TRISODIUM EDTA, SODIUM METABISULFITE, POLYSORBATE 20, CAPRYLYL GLYCOL, SODIUM CITRATE, BUTYLENE GLYCOL, CITRIC ACID, POTASSIUM SORBATE, SODIUM BENZOATE, BENZOIC ACID, SORBIC ACID.

The ingredients of the CoolCell gel-cream:

AQUA (WATER), SODIUM ACRYLATES COPOLYMER, HYDROGENATED POLYDECENE, CAFFEINE, CARNITINE, EUGLENA GRACILIS EXTRACT, VERBENA OFFICINALIS (VERVAIN) LEAF EXTRACT, CENTELLA ASIATICA (CENTELLA) EXTRACT, EQUISETUM ARVENSE (HORSETAIL) EXTRACT, SAMBUCUS NIGRA (ELDERBERRY) FLOWER EXTRACT, EUGENIA CARYOPHYLLUS (CLOVE) FLOWER EXTRACT, PAULLINIA CUPANA (GUARANA) SEED EXTRACT, GLAUCIUM FLAVUM (YELLOW HORNPOPPY) LEAF EXTRACT, GLAUCINE, SODIUM HYALURONATE, NIACINAMIDE, CALCIUM PANTOTHENATE, SODIUM ASCORBYL PHOSPHATE, TOCOPHERYL ACETATE, PYRIDOXINE hcl, ASCORBYL PALMITATE, BIOTIN, PHOSPHOLIPIDS, PROPYLENE GLYCOL, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL, GLYCERIN, VANILLYL BUTHYL ETHER, POLYGLYCERYL-10 STEARATE, CAPRYLYL GLYCOL, POLYSORBATE 20, SODIUM STARCH OCTENYLSUCCINATE, LECITHIN, MALTODEXTRIN, COCO-GLUCOSIDE, SODIUM CITRATE, 1,2- HEXANEDIOL, BUTYLENE GLYCOL, ALCOHOL DENAT., TOCOPHEROL, SILICA, SODIUM METABISULFITE, TRISODIUM EDTA, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, POTASSIUM

SORBATE, SODIUM BENZOATE, BENZOIC ACID, SORBIC ACID, CITRIC ACID, PARFUM (FRAGRANCE), LIMONENE, LINALOOL, CITRONELLOL, CITRAL, GERANIOL.

The key elements here are glucine, caffeine and carnitine.
